

## International

Welcome. This section of the website allows people taking part in specific projects to access information eg Scotland, Wales and Belgium, through the links below. It also gives information about the worldwide use of the Gold Standards Framework. Not all areas are mentioned. For many the work is in early developmental stages. Please do not hesitate to contact the team for further information or to discuss how we can help you to achieve excellence in end of life care. We are always keen to hear examples of good practice and to share suggestions about how to meet your challenges.

### Policy on non-UK use of the Gold Standards Framework

The GSF has been licensed for use within the NHS in the UK. Anyone enquiring from outside the UK should note the policy set in the [attached](#).
