

‘Celebrating quality care in the Golden Years’

Gold Standard care for people in their golden years, nearing the end of their lives - showcasing inspiring examples of excellence in integrated care

At this London conference, run by The National GSF Centre, we will hear from keynote speakers, and celebrate excellence, showcasing the achievements of frontline GSF accredited teams in both health and social care.

These frontrunning teams demonstrate what is possible to achieve on the ground, inspiring and encouraging others to aim for ‘gold standard’ care for people in their ‘golden years.’

Join us for inspiring examples of award winning grassroots success, high level keynote speakers, practical advice on implementing quality end of life care, learning opportunities at tailor made workshops to suit all settings - and networking with others committed to this area.

“Its absolutely amazing! Not the usual kind of conference - more a community of best practice”

Comment from delegate at 2017 GSF Conference
